fielding J. Stilson Company REALTY ::: STOCKS ::: BONDS

305 H. W. HELLMAN BUILDING

Mr. John B. Enquirer, Los Angeles, Cal.

Responding to your valued inquiry of May 20th, concerning the American Petroleum Company 6% Gold Bonds:

These bonds are entitled to favorable consideration on merit. The are a first mortgage on over 10,000 acres of admirably situated oil pr some producing, some now being drilled, and all of great value; conservetively appraised at above \$5,000,000; an exceedingly low entimate. Oil men, after investigation, place the value very much higher. A prominent and successful oil operator in a recent letter to Mr. Doheny, President of the American Petroleum Company, says: "I believe no other oil company now deing business on this Coast has had at the beginning of its career such large holdings of proven productive oil territory as your company."

Other authorities estimate the 1280 acres in the Coalings field owned in fee as capable of yielding 100,000 bbls. per sore, or a total of 128,000,000 bbls., valued at 61 3-4c per bbl. in the open market. The gross productive value of this holding is consequently \$79,040,000.00. The cost of production can be safely estimated at 10% per bbl., making the net value about \$66,000,000.00. Development will commence within a week.

The Niles lease, comprising 81 acres near Sherman, is now producing 2,000 barrels per day, with an assured product of 3,000 barrels, the entire output being under contract. These two fields comprise only about one-tenth of the American Petroleum Company properties. This oil is already contracted for at the topmost price per barrel, insuring a splendid income.

The Monterey properties are developing. They have been carafully experted, and beyond question will be richly productive.

Doubtless you have noted the bonus in stock allotted with each bond subscription. This stock has an open market value at the present time of \$25.00 per share, and we are assured will earn dividends this year of not less than 5%. We recommend the bonds without reserve, and will cheerfully afford you any additional information you may desire.

We really think it would pay you to call at our office and close your subscription without delay, as the right is reserved to discontinue the Very truly yours, PIELDING J. STILSON Cd. bonus without notice.

· Fielding J. Stilson, President.

chan DiPRO. May 20.—With the sloption of the ordinance granting wharfage franchises to the San Diego and Arlzong Rallroad by the Common council Thursday night, work on this aportant improvement is promised to begin immediately. The wharf is a land to cover an area extending from Ninth street to Sixteenth street. The three piers and bulkhead will afferd 152 feet of dock frontage. This will give room for two sets of railroad tracks on each pier. At the offices of a fean Diego and Arizona Railway company it is announced that consection of the piers will commence as on as the necessary material can be allivered on the ground.

These announcements are expected to be a general impetus to the real sale market, and numerous deals of certainee that have been hanging to be several months are now expect-to be completed.

One of the important deals of the was was the sale of a frame fia bilding on the west side of Fift street, between Beach and Cedar, be Scott-Burnham Investment Common to William E. It is one of thirty buildings students of this school have worked upon during the last six months. It is not, however, the object of the school to enter the field as a competing contracter. The work is taken only at the divection of the instructors as a continuance of the students education.

The idea of young men who have had cally some three month's instruction at their trade being put out on productive york, as shown here, is new to the building trades industry. There are trade schools in all the larger eastern cities, but there are few which give the student practical work in actually executing buildings taken by contract The average age tof students of this school is about thirty years and there was an enrollment of more than 20 hat year. The instructors are all practical, men of more that wently men of caperience in their respective
